

Gen4 Pillow Speakers

When we started designing the new Gen4 digital pillow speaker line, we wanted it to not only be a new platform for the future, but a new way of thinking, as well. Using over 45 years of experience designing and manufacturing the most popular pillow speakers in the world as our guide, we started from the ground up, combining the best features of our previous pillow speakers, suggestions from customers, and new materials and techniques to make Gen4 a step ahead of anything else in the nurse call industry today.

PATIENT SATISFACTION

- ▶ Buttons are easy to find and press.
- ▶ Streamlined and lightweight, like home remote controls.
- ▶ Crystal clear sound.

INFECTION CONTROL

- ▶ Proprietary design reduces the potential risk of infectious fluids or solids settling into the unit where they could be passed from patient to patient.
- ▶ Smooth shape allows for quick and easy cleaning, helping to ensure that dirt and grime cannot collect on the unit.

OXYGEN SAFETY

- ▶ UL Listed pillow speakers are tested with the nurse call system and verified for safe use in an oxygen-enriched atmosphere.
- ▶ Visit www.oxygensafe.com for more information

REGULATORY COMPLIANCE

According to 21 CFR 890.3710, powered communication systems and their accessories are considered Class II medical devices. As such, Curbell manufactures our nurse call communication accessories in compliance with this regulation. The FDA regulates all products and manufacturers within this regulation. Curbell's quality system complies with current Good Manufacturing Practices (cGMP) per 21 CFR 820 and is ISO 13485:2003 Medical Devices – Quality Management Systems certified.

KEEPING YOU CONNECTED™

FULLY SEALED UNIT

The sealed design reduces the potential risk of infectious fluids or solids settling into the unit.

LARGE BUTTONS

Gen4's large buttons are recognizable at a glance and easy to press. The simplified layout makes contacting the Nurse and controlling TV functions simple.

USER-FRIENDLY BUTTON LAYOUT

Intuitive, standardized button positioning makes operation easy. Mute, Closed-Captioning, Sleep, and Option are standard on all models.

AUXILIARY FUNCTIONS

The Gen4 platform allows for up to six auxiliary buttons to control lighting, temperature, drapes, nurse call features, etc.

REPAIRABLE

You can utilize Curbell's repair service or choose to make basic repairs yourself, including quick cable replacement.

SUPERIOR SOUND

Clear, high quality sound to increase patient satisfaction.

VOLUME CONTROL OPTIONS

All models come standard with digital volume controls, and are available with analog volume for situations where two pillow speakers need to control one TV.

EASY-TO-CLEAN CASE

The streamlined design facilitates quick and easy cleaning.

REPROGRAMMABLE FOR DIFFERENT TVs

There's no need to manage numerous pillow speakers to support various hospital TV brands in your facility. Each Gen4 Pillow Speaker can be quickly reprogrammed within seconds.

COMFORT-GRIP CASE

Gen4's lightweight case was designed to mimic the comfort and familiarity of a home remote.

FLEX AND STRAIN RELIEF

Gen4's long flex relief was designed for longer life and greater flexibility. The smooth design facilitates easy cleaning and resists dirt and grime buildup. Internal strain relief prevents damage to internal components.

ADDITIONAL FEATURES

OPTIONAL STEREO HEADPHONE JACK

Ideal for creating a quieter environment for patient rooms.

OPTIONAL ANALOG VOLUME CONTROL

Ideal for situations where two pillow speakers need to control one TV.

REPROGRAMMABILITY

Gen4 pillow speakers can be easily reprogrammed in the field for different televisions.
